Figure 1 is a 3D bar chart illustrating the distribution of the number of children per family across different family types. The vertical axis (Y-axis) represents the number of children, ranging from 0 to 10. The horizontal axis (X-axis) represents the number of children, also ranging from 0 to 10. The depth axis (Z-axis) represents the number of families, ranging from 0 to 10. The chart shows that the majority of families have 1 or 2 children, with a smaller number of families having 3 or 4 children. The distribution is skewed towards the lower end of the number of children.
